(54) Title: DISPOSABLE PRINTER

(57) Abstract: The present invention relates to printing apparatus and particularly, but not exclusively, to printing apparatus for use with personal computers and portable computing devices (such as laptops). The invention provides a printer chassis (8) manufactured from a disposable and biodegradable material. A further aspect of the invention provides a printer assembly comprising the aforementioned chassis (8) and at least one sheet of paper (10) to be printed, said paper (10) being located within the chassis. The invention thereby provides a printer which is relatively inexpensive to manufacture and convenient to use.
